On the 15th of June 2012, two of our Crew members, our past and current presidents graduated from North Kitsap High School. Congratulations to Zack T. and Melissa W! Both maintained an excellent balance between all their activities (mainly band) and their academics. Zack expressed that, "Its been a long and difficult four years of high school, but with hard work and supportive activities and friends, I have enjoyed myself! It feels great to have graduated and I'm excited for the future." Zack will be attending the University of Portland this fall and Melissa leaves for the University of Utah.

Another graduate from our Crew is Sam R. On June 16th 2012, along with her fellow senior ASB members, Sam lead their class in walking onto the field and to the final moment of turning the tassels. Kingston's Class of 2012 was big for their school, and their class had their own character. Sam will take classes at Edmonds Community College, intending to transfer to a university after two years. Sam graduated with high honors.

The four years of high school can seem like the longest part of your life and sometimes the roughest. Graduating is something to be proud of and a true accomplishment. Some of the best things happen your senior year. Senior pranks, Prom, Skip Day, and Grad Night are the first and lasts we have of those times. Now forward we go to our colleges of choice and gain new experiences all our own. Good luck graduates! Continue your connections to the Crew, for while you are gone, you will be missed.
